Answer: .....
- 22 What is the bridge number at the end of Severn Close?  
Answer: .....

**D**iscover how easy it is to use Congleton's back roads and shortcuts for pleasant walking and cycling routes for everyday journeys around the town. Going to work, the shops, the leisure centre or school are all easy to do on foot or by bike, because in Congleton no journey is more than 2½ miles.

As a fun way of exploring this network of quiet routes, avoiding the busy main roads and steepest hills, there's a treasure hunt for you to enjoy, devised by Congleton Cycling Campaign and Congleton Town Council. There's no need to complete it all in one go, so you can plan a few trips with family or friends at different times. If you do any parts on your bike, you'll find out how fast you can get from A to B, too.

Complete the hunt any time between June 16th and August 31st 2014. Using the Congleton Cycle Network map overleaf, follow the green lines. At the numbered locations find the clues and answer the simple questions in the spaces provided. Add your 'tie-breaker' and contact details, then pop the completed form into the box at the Tourist Information Centre in Congleton Town Hall. If you need more space for your 'tie-breaker' please use a separate piece of paper and fix it to your completed form.

The completed forms with the most innovative or appropriate walking or cycling tie-breaker will win prizes donated by Congleton businesses.

*The fresh air awaits you... Enjoy!*
