

### **Culture in your own home:**

As many of us are looking for activities to keep us connected and active during this period of social distancing and self-isolation. We have put together a list cultural events, activities and resources that you can access from home.

There's a wide range of activities available – from ebooks and emagazines to download; daily creative challenges to engage with; community choirs you can sing with. There's a vast choice of national galleries who offer a virtual tour; and the chance to catch up with Royal Opera House performances; there's even the opportunity to improve your circus skills!

This is just the beginning as more organisations and individuals are developing activities and online content that help us stay connected in these challenging times. We will update our resource pages and share these when they are available. If you are aware of more online activities that are open for others in our local community to join locally please get in contact with us by email:

[artswest@cheshirewestandchester.gov.uk](mailto:artswest@cheshirewestandchester.gov.uk)

Please be aware that CWAC Council does not have any responsibility for the content of most of these links and have shared them in good faith.
