CONGLETON TOWN COUNCIL

COMMITTEE REPORTS AND UPDATES

COMMITTEE:	Strategy working group			
MEETING DATE AND TIME	7 th December 5.30 pm	LOCATION	Town Hall	
REPORT FROM	Chief Officer			
AGENDA ITEM	Agenda item 18			
REPORT TITLE	Cheshire East Council Op	en Space Consultation		
Background	This consultation outlines proposals for the introduction of a new policy relating to maintenance regimes of green spaces within Cheshire East. As part of the policy site schedules have been produced which set out the typology and overall zone rating for each site. The revised approach allows CEC to deliver savings which were highlighted in their Medium Term Financial Strategy 2023-2027 whilst providing a framework to drive consistency of standards across all council-maintained green spaces and delivering opportunities for rewilding of specific areas, promoting increases in biodiversity. Click on this link for detailed CEC information Maintenance of green spaces consultation (cheshireeast.gov.uk) The outcome of the consultation will determine what is included within our Streetscape contract with Cheshire East Council however it is worth noting that we may choose to go beyond the minimum requirements that are stated.			
Detail provided by CEC	Typology: All council-managed green spaces are divided into eight typologies based on the type of site and its primary function. Subject to the size of the individual site in question each of these typologies could be further broken down on a zonal basis with maintenance standards then being set according to each zone typology. These standards will be based on a set range of annual maintenance tasks. Typology A Formal Parks and Gardens This typology includes the likes of high-profile town parks and gardens which are well-used community spaces. The sites in this category typically have leisure/recreation features and a higher proportion of ornamental features, to also include named cenotaphs. These sites are those as identified on the Council's webpages - Parks and gardens in Cheshire East. An example of which is Congleton Park Typology B Outdoor Sport This typology incudes the locations that support sporting activities throughout the borough. This includes sports turf pitches subject to fees and charges and involves management practices that . An example of which is Back Lane Playing Fields ensure these facilities are maintained to playable standards			

Typology C – Community Green Infrastructure

The community green infrastructure typology includes public open space that features key infrastructure such as play areas, multi-use Games Areas, key green spaces within town centres (including a small number of core town centre cemeteries) and related maintained connecting corridors. Sports pitches which are not maintained to the same standards as those listed under Typology B may be present in this category.

Typology D – Urban Open Spaces

This typology includes the borough's open space within the core urban environment, such as planting strips/grassed areas within housing developments, ancillary green spaces surrounding car parks, highway verges and employment parks.

Typology E - Rural Open Spaces

This typology includes the borough's open space, highway and other grass verges and ancillary green spaces within a semi-rural or rural setting.

Typology F - Cemeteries, Church Yards & Memorials

This typology includes cemeteries, closed graveyards, church yards and memorials otherwise not covered under other typologies.

Typology G – Inspection Only

This typology includes sites where there is no proposed planned maintenance but inspections from a safety perspective will be undertaken, most often related to the presence of mature trees or play equipment accessible to the public. Where issues are identified from those inspections requiring intervention these will be programmed on a reactive basis.

Typology H – No Inspection or Maintenance

This typology includes sites where there is no proposed planned inspection or maintenance as the site is allowed to be re-wilded to enhance biodiversity, closed to public access or it is not registered in Cheshire East Council's ownership

Zones

A set of three-zone ratings have been selected to group maintenance standards under specific descriptions. They are as follows:

1 **High amenity** (high maintenance)

Maintenance standards expected for high profile areas such as in formal parks and bowling greens. The tasks within this zoning include regular mowing of fine Turf areas, floral display maintenance including watering, dead-heading, pruning, weeding and fertilizing; and maintenance of formal water features. Fine turf grass playing pitches will include programmed scarification, aeration, irrigation and renovation at the end of each playing season. Enhanced highway features i.e. Roundabouts

2. Medium amenity

Maintenance standard expected in areas where there is a high level of general use/activity, sites such as recreation areas. The tasks within this zoning include regular mowing of park grassland and sports playing fields. Informal hedge maintenance, informal shrub and non-ornamental seasonal bedding maintenance and roundabouts.

3. Low amenity (low maintenance)

Maintenance standard expected in natural areas including countryside parks, rural spaces and grass verges. The tasks within this zoning include mowing of grass verges, highway gateways, meadows, natural ponds, rural and natural hedge

As a general guidance on grass cutting/hedge maintenance frequency by amenity

Grass Cutting

Amenity	Current	Proposed (CEC)		
High	12-14	12-14		
Medium	12-14	4-6		
Low	12-14	1-2		

Note Through low mow town initiative we have reduced the grass cutting in many areas by leaving large swathes of grass uncut for environmental benefit

Hedge Maintenance – no proposed change 1-2 times per year

Next steps / process

In **Appendix A** Cheshire East have provided an excel document which has 2 sheets identifying individual areas in Congleton that require maintenance. They have completed the forms with their opinions on

- 1. Typology A-H
- 2. Amenity level Low, Medium and High
- Any areas not listed we are advised that there is no change
- At the bottom of the page you will note sheet 1 and sheet 2 on tabs.
 Click on Sheet 2, which is our main area for maintenance, the Streetscape
 Manager and the Chief Officer have undertaken an initial review of the
 individual sites and you will note that there are 2 additional columns that
 have been added to show the suggested CTC position against the CEC
 proposals.
- When you open the document and scroll down to see all of the areas that are covered
- On the 23rd November a Council Strategy working Group met to discuss the proposals provided by Cheshire East Council. In appendix A the Strategy Working Group completed their review of sheet 1 and agreed that the Chief Officer and the Streetscape Development Manager complete sheet 2

	based on the principles set by the Strategy Working Group when reviewing sheet 1. All amendments are highlighted in yellow				
Financial Implications	There will need to be a review of the financial impact following the conclusion of the consultation as we need to establish how best to manage the contract we have with Cheshire East Council. Considerations could include				
	 Do we increase grass cutting above the contact level Can we provide services to surrounding parishes who are dissatisfied with the proposed maintenance Review our equipment capability/methodology if there is an increase in the areas with 1-2 cuts annually Do we use current resources to enable the council to lead on environmental projects rather than just supporting volunteers, this could potentially expand as a paid service into other parishes 				
Environmental Implications and Opportunities	 There are Environmental benefits with a reduction in grass-cutting Opportunity as identified in Financial 4 				
Equality and Diversity Impact	On grassed areas that are ordinarily accessible to all residents, this needs to be considered when reviewing the maintenance schedule.				
PROPOSALS	Initial feedback from the informal meeting has been forwarded to CEC as our draft response. Any further amendments made by the Council will be received by CEC even though we have passed the official response date, this approach has been approved by CEC.
