### Appendix 1 Report from Cllr Douglas 2<sup>nd</sup> September 2025- Section 106

I am forwarding Cheshire East Council's response to my Freedom of Information Request No 31704977 in respect of Section 106 Potential Funds in respect of Congleton Not Received on both the April 2025 and October 2024 Financial Ward S106 Analysis.

The deadline for Cheshire East to respond to my F.O.I. Request was 4th August 2025 but Cheshire East did not respond until 21st August 2025.

In my F.O.I. Request, I asked Cheshire East to advise for the 40 individual amounts of potential S106 outstanding monies which I had analysed in a logical manner, over 14 separate planning applications, as to whether the trigger point for payment had been reached and if so, when it was overdue.

The total of the 40 individual potential outstanding amounts within these 14 planning applications was £ 869,663.94.

In their response, Cheshire East gave the same answer for all the outstanding individual amounts within each of the 14 planning applications.

#### **Cheshire East advised:**

Nine totalling £ 661,910.08 (76.1% of the total) were categorised by Cheshire East Council as "Chase Developer where known payment trigger has been set".

Four totalling £ 191,044.39 (22.0% of the total) were categorised by Cheshire East Council as "Development not started/case to be archived".

One totalling £ 16,709.47 ( 1.9% of the total) was categorised by Cheshire East Council as "Check if development commenced"

It is of great concern that in their response of 21st August 2025, Cheshire East Council states that, "Overdue dates are not currently recorded, but upon payment, indexation and any late payment are applied in line with the terms of the Legal Agreement".

From this statement, I have reached the conclusion that Cheshire East Council have not been monitoring closely the dates that S106 monies are due for payment and instead relied on developers paying when the debt falls due on the basis that developers would wish to avoid paying additional sums triggered by the indexation clauses in the Legal Agreement.

However, this approach is flawed because substantial sums have been lost when the developer, Stewart Milne, went into Administration.

Furthermore, other very substantial S106 monies have not been received in a timely manner. As a result, substantial sums of S106 monies have not been utilised in a timely fashion for the benefit of our communities.

There is a deadline by which site works have to be completed. Given that the legal agreements for the four planning applications marked "Development not started/case to be archived" date back to 2012, 2013, 2014 and 2019, I will send in an F.O.I. asking whether this means that most, if not all, these planning applications cannot now legally commence on the basis that they are now out of time.

If these planning applications cannot now legally commence, this means that within the April 2025 Financial Ward Analysis, very substantial sums which are detailed as potential outstanding monies are in fact not potentially outstanding monies at all and should be deleted from the S106 Financial Ward Analysis of Potential S106 Funds.

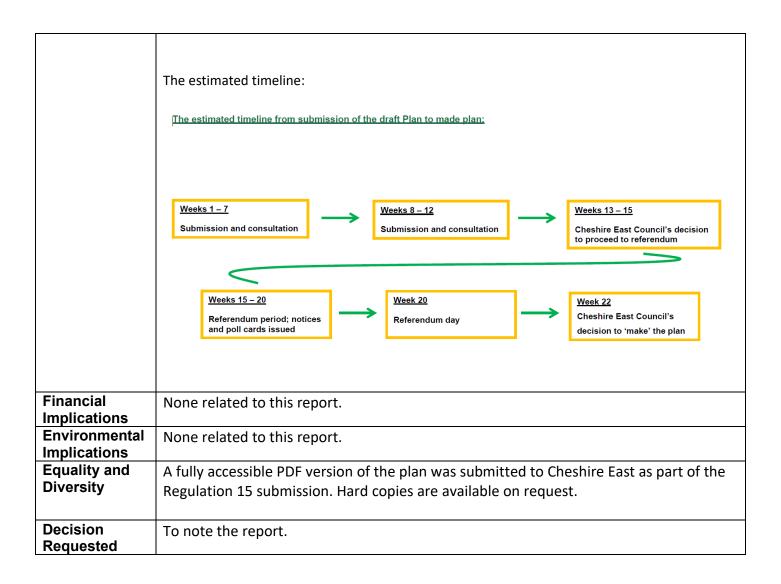

In their response of 21st August 2025, Cheshire East Council states that, "resources have recently been added to the S106 Team to enable closer monitoring of development activity."

I will ask in a F.O.I. for further details from Cheshire East about these additional resources, and I hope that Cheshire East's answer will give us some comfort that, going forward, Cheshire East Council will more effectively manage outstanding S106 monies than it has in the past.
